Interconnection elevates us. We recognize the power of collaboration and understand that earning our DebtFreeDegree is inherently individual and communal.

Wisdom empowers us. We are committed to sound financial and educational decisions. We research both ways to make money and ways to save money, ensuring a future free from the burden of student loan debt.

Creativity ignites us. We break free from conventional thinking. We explore innovative approaches to tackle financial challenges and pursue our academic goals with resourcefulness and imagination.

Wellbeing sustains us. We prioritize our mental, physical, and emotional health. We balance academic pursuits with self-care, knowing that a healthy mind and body are essential for achieving academic and financial success.
